

A study pathway for Christian children

Specialists in Admissions to the top UK Schools

A Homely, Nurturing Christian Environment

Vision House School is for parents considering a British education and looking for a caring Christian environment in London with a route to top UK schools.

Entry into prestigious schools in the UK can take years for international students.

It is common to get stuck on long waiting lists.

Additionally, many international agents only present you with a limited selection of school they are partnered with and so you do not have a broad choice.

However, if you have looked at the league tables, you will have seen all the top schools in the UK that the international agencies just don't present to you. Vision House has unrivalled expertise in applications to the full range of British schools suitable for your child.

Vision House School is located in Esher, set in a peaceful, leafy location in Greater London and the ideal environment for growing up. We pride ourselves on a truly homely atmosphere, caring for our students as you would your own.

Henry Aronsson
Headmaster,
Vision House

I am delighted to warmly welcome you to Vision House School. It is personally very exciting to be part of this young school founded on strong Christian values. Our environment ensures students are supported at every turn and are comfortable, safe and strive to achieve their highest potential.

Under 18 international students living in the UK away from their parents are required to have an appointed legal guardian and it is insisted upon by most private schools. We are highly experienced in fulfilling this role, supporting the students, communicating with schools on behalf of parents, and providing all the needs for the well-being and success of our students.

WHAT VISION HOUSE OFFERS...

- Fully bespoke preparation packages for entry into the top tier British private schools, public schools, colleges and universities
- Guardian Services
- English language courses
